The Secretary of the Nawy to day sent to the Heuse a voluminous correspondence relative to Affairs in Paraguay. It sppears that on the 4th of December Admiral Darks addressed to President Lopez a letter in which he says. It does not belong to me to dedue or even consider the status of Bilas and Masterman, but on this subject your Excellency will, I do not doubt, repose confidence in the justice and friendship of the United States which has afforded your excellency many recent proofs of its respect and sympathy. Lopez replied. Those persons were criminals, desply committed in the affair of a borrible conspiracy, very particularly the former. He said has would cheerfully consent to the delivery of the criminals, provided it were requested in amanner more in cognizmity with the fact of field belog accomplices of ex. Minister Wash introne, and the first intinately a quantote with his intrigues in the character of compirator and agent of the evenny of which he is accused in the national tribunals. To this Admiral Davie responded: It was no part of his official day either to offer or to refuse any terms which would affect the legal criminal referring to the friendship of the United States toward Paraguay, be asked that Bliss and Masterman be cun barked on board his vessel, subject to the disposition of the Government of the United States, of whose justice and friendly sentiment. President Lopez could curvain no doubt. Lopez acceded to the requast saying, however, it could not be compiled with in the sense of a reclamation but of a graceful courtesy on the part of the Government of Paraguay toward the United States.

Skating Binks-Velocipedes-The Singe-Music, &c. BUFFALO, Feb. 6, 1869.

The winter has been remarkably favorable for all kinds of enjoyments and never in my recollection has there been so pleasant a sesson in Buffalo. The Skating Bink makes its first ap pearance here this winter. It is an enormous building of remarkable architectural hideous-ness. The older style of buildings here are generaly dreading to behold, but this new monstro-

sity strikes borror into the heart of every person who has a liking for the beautiful. The interior arrangements of the building are strikingly plain and a great contrast to the brilliant moving throng, darting in ever direction. The rink abserbs a large portion of the pleasure seeking people here who crowd through its rather narrow doorways at night, and there is also a con aiderable attendence in the afternoon. Amongs the new professional skaters, the most interesting are Miss Milligan and Miss Lawin. sional exhibitions are given, in one of which Mr. Goodrich, a native of Buffsie, much distinguished himself. A prize was given for the best lady skater, but as there was only one competitor this part of the exhibition was some hing of a failure.

The velocipede is another of the institutions of Buffalo, which is now prevading society to a fearful extent. A Mr. Kennett, whose father kasps and extensive tailoring establishment here is probably the most distinguished of self propellers, sithough a large number are conten
